- **Technologies and Applications:** React, NextJS, Node, Express, JQuery, MYSQL, MongoDB, REST API, Bootstrap, Material UI, Flexbox, Moment, NPM, Sequelize, Visual Studio Code, Heroku, Netlify, Insomnia, EmailJS, Google
- **Project Management:** Git, GitHub, GitLab, Agile Methodology, Notion, Kanban boards

TECHNICAL PROJECTS

Daily Meal Planner

Source Code: github.com/dev-dominick/daily-meal-planner

Deployed Linked: <https://dev-dominick.github.io/daily-meal-planner/>

- First collaborative front-end application developed to generate meal ideas and recipes based on a protein choice, meal type, and desired calories. Built-in note-pad to jot down your shopping list. Functioning map to display markets in the area based on zip-code.
- Built with JavaScript, HTML, CSS, Bootstrap, Edamam recipe API, and Mapquest API.
- Worked through multiple merge conflicts and learned to store API keys in a .ENV file for security.

Let's Connect API

Source Code: <https://github.com/dev-dominick/lots-connect-api>

Deployed Linked: <https://watch.screencastify.com/v/oEoDfvKYfBOQ1mempRNd>

- A REST API for a social media application. Functionality includes creating a profile, updating a profile, adding thoughts (posts) to an account, adding friends, and adding reactions to a friend's thoughts (posts).
- Built with Express, Mongoose, and MongoDB. APIs tested with Insomnia.

- Future plan is to build a full MERN stack application integrating this API.

Workday Planner

Source Code: <https://github.com/dev-dominick/work-day-planner>

Deployed Linked: <https://dev-dominick.github.io/work-day-planner/>

- Plan your day by saving tasks to hour blocks.
- Hours of the work day are color coordinated indicating past, present, or future.

PROFESSIONAL EXPERIENCE

Web Developer

07/2020 - Present

Open-Source / Personal / Freelance, Pilesgrove, NJ

- Worked through various self-paced, online development curriculums to begin learning development.
- Graduated University of Pennsylvania's Full-Stack Development Bootcamp to further my knowledge and skills as a developer.
- Contributed to many open-source and freelance projects by adding reusable and scalable code to assist with the project growth.

Virginia State Trooper

07/2018 - 08/2020

Virginia State Police, Waverly, VA

- Improved public relations by leading programs to create opportunities in schools and in the community to promote positive interactions with police.
- Received 5+ letters of recognition from the 2016 Presidential staff and the governor of Virginia after assisting with assignments.
- Nominated to be part of the 5% of State Troopers to represent the Virginia State Police during the 2020 Presidential Inauguration.
